

ADVANCED HEALTH MANAGEMENT PROGRAMME

Dr. Joseph Muhlari

Mr. Muhlari is the CEO of Letaba Provincial Hospital, a position that he has held for the past 6 years.

The AHMP course helped him gain a deeper insight into management in the healthcare industry. He now has the know-how to design and implement healthcare programmes and can monitor and evaluate the programmes to find out if they are sustainable.

"My view about FPD is that they have a management course that is that is relevant and responsive to the needs and challenges of healthcare professionals."
