

# HIGHER CERTIFICATE IN MANAGEMENT

## Mr. Jean-Marie Kabongo Cimanga

Mr. Simanga is an HIV Ccounselling and Testing Counsellor Supervisor at an NGO called CARE (Community Aids Response) in Yeoville where he has been working for 6 years.

The HCM course helped perfect some elements that Jean-Marie had already been trying to perfect, such as leadership skills and operations management. Jean-Marie's supervisor has already noticed a change and he is being groomed to handle more management responsibilities.

"FPD services were so excellent that I am testifying about it everywhere!"

*"What FPD is doing is VERY important because many managers are leading the company without those skills like the ones that I gained this year. I preferred more training with FPD as it has many qualified facilitators."*
