

# HIGHER CERTIFICATE IN MANAGEMENT

## Mr. Paul Kelly

Paul Kelly works for Africaid Trust as South Africa's Country Director. He is in charge of a programme called WhizzKids United.

He believes that there is a need for FPD's services in all of South Africa as FPD has a better understanding of the development sector's needs and has proven methods to address these needs.

To conclude, Mr. Kelly appreciated the clear and timely communication of all activities from FPD.

*"I think one of the most important things I learned was the importance of managing time more efficiently and being able to decide which tasks need to be prioritized. Also, the realization of how important it is to manage people well in order for the organization to run well. It also gave me a better appreciation of what challenges like-minded organizations are facing and what they are doing to overcome these."*
