COLLECTING DATA • CONNECTING COMMUNITIES

LIMPOPO

A SUPPORT SERVICES DIRECTORY – SERIES 6 2013

Introducing info4africa ... a new identity for HIVAN

The Centre for HIV/AIDS Networking (HIVAN) has a long history of working in the field of HIV, AIDS and TB:

- we have built a country-wide database of over 12 000 support service providers
- annually we disseminate upwards of 20 000 directories capacitating service providers in all sectors, and
- we engage in a variety of face-to-face networking activities including forums, workshops and training

Over the past decade there have been a lot of very positive changes in the health landscape of South Africa. People now live and work with HIV and for many HIV has become a chronic disease. Likewise, living with immune deficiencies has created new vulnerabilities for people to non-communicable and communicable diseases; a need for socio-economic support; human rights and legal support and increased pressure for training, education and development programmes.

HIVAN's focus has expanded and matured with these changes such that our database, wider networking and capacity building activities now more broadly reflect service provision in health, wellbeing and development in South Africa.

With this broadening of focus we felt it was time to change our name to one that more fully conveys the scope of our products, activities and expertise.

Through a consultative process with our partner organisations and our staff we are now very pleased and proud to announce our new name and tag line.

COLLECTING DATA • CONNECTING COMMUNITIES

This new brand speaks to our history and gives us a broader stage on which to engage with all stakeholders in the years to come. We hope you will agree with us.

info4africa is a self-funded Centre of the School of Applied Human Sciences, College of Humanities, University of KwaZulu-Natal.

info4africa's database can be accessed in the following ways:

- Directories for each Province (Series 6 in production)
- Mobile Phone
 - Call *130*448# (Free call except on Vodacom. Vodacom users call *120*448#)
 - SMS 45080
- www.info4africa.org.za
- info4africa.storefind.mobi

For more information on info4africa call 0860 448 911 or email us on heusticed@info4africa.org.za

"This directory of HIV-related services in Limpopo is partially made possible by the generous support of the American people through the United States Agency for International Development (USAID) and the President's Emergency Plan. The contents are the responsibility of the Centre for HIV and AIDS Networking (through a Sub-Agreement with Foundation for Professional Development) and do not necessarily reflect the views of USAID or the United States Government".

How to use this Directory of Support Services Providers:

- This publication forms part of our Sixth Series of Support Services Directories.
- It contains contact details of 1,049 organisations working in health, wellbeing and development support in Limpopo province.
- The directory is used to capacitate support services providers in connecting with and referring clients between organisations working in all areas of this province.
- To make it easy to find support services in your area, we have categorised the organisations by location. Organisation information is listed alphabetically within their municipalities.
- An alphabetical index of all organisations within this province is provided at the back of the directory, along with the details of their respective municipalities.
- Maps are provided at the start of each metropolitan / district municipality section.
- A summary description and contact information is listed for each organisation. Icons have been provided for primary services to help you identify organisations that provide the services you require.
- At the front and back of the directory is a full listing of the primary and secondary service categorisation that we have used for all organisations.
- If you need to edit any listing in this directory or alert us to new organisations please complete the update form at the back of the directory or contact us on: 0860 448 911 or email us on community@info4africa.org.za
- Our database is also searchable on the web or via mobile phone – see the inside front cover of this directory for full contact information.
- Directories can be ordered at R200 per province or R500 for a CD-Rom of all 9 provinces.

Thank you to our Project Partner, Foundation for Professional Development (FPD):

- The info4africa national directory project is funded by the FPD through PEPFAR/USAID. The FPD is currently the largest self-funding health sector educational provider in South Africa.
- The FPD has 3 key focus areas: education, research and capacity building - more specifically in the areas of health and management.
- Info4africa reports to the Compass Project within the FPD. This FPD initiative strives to assist communities to respond effectively to HIV:
 - Their HIV and AIDS Mapping and Research Centre working to achieve accurate epidemiological data and gap analysis for communities.
 - They also provide information and resource collaboration for locating HIV and AIDS services/organisations; and
 - They facilitate organisational development and capacity building through organisational needs assessments, benchmarking and skills building for community organisations.
- For more information on the FPD and the Compass Project, please visit www.foundation.co.za

Ambergate Clinic

We are a government/public organisation. We are a primary health care facility providing HIV, AIDS and TB-related treatment. We have a community oriented primary health care programme that monitors and proactively works towards the improved health and well-being of families in our area. We are an accredited antiretroviral (ARV) treatment initiation and on-going treatment site. We distribute fortified porridge and peanut butter to malnourished children, TB, HIV and AIDS patients. We provide home-based care services for sick people and support for their vulnerable family members. We provide assessments and referrals for people with mental health issues. We also provide maternity services for pregnant women. We refer patients to WF Knobel Hospital for further medical care. Our service areas are Ambergate, Mametabi, Pennery, Pinksiwili, Roseberg and Waagslagte. We are open from 07:00 to 16:30, Monday to Sunday. An on-call system is available after hours for emergencies.

Dikgale Home-Based Care

We are a community-based (CBO), non-profit organisation (NPO). Our home-based care workers help people living with terminal illnesses to bathe, clean their homes and cook their food. We also visit child-headed households, orphans and vulnerable children between the ages of 6 and 18 years and provide them with food parcels and school uniforms. We refer these children to social workers for assistance with social grant applications. We are open from 08:00 to 16:30, Monday to Friday.

Heart Beat - Limpopo

We are a community-based organisation (CBO). We encourage orphans and vulnerable children to reach their full potential, through quality service provision, development and capacity building. We believe that the family is the most basic form of support that a child needs and we therefore try to keep siblings together by mobilising circles of support around the children within their communities. Our programmes are delivered through project sites called "After-School Centres". We contribute to the positive transformation of the child as a whole, with our guiding principles being children's rights, community participation, sustainable development and partnerships. At our branch we provide care services to orphans and vulnerable children including child-headed households. We conduct home visits and assist with the social grant application process. In addition we run a soup kitchen which provides lunch to vulnerable children after school. We assist them with their homework and provide life skills training. We care for children and youth from 4 to 18 years of age. We also help people apply for identity documents, social grants and birth certificates by referring them to the relevant government departments. We are open from 08:00 to 16:30, Monday to Friday.

Thusong Eldorado Service Centre

We are a government/public organisation. Established as a one-stop, integrated community development centre with community participation and services relevant to people's needs, we empower the poor and disadvantaged through access to information, services and resources. Our Centres integrate government services into primarily rural communities which historically have poor service access due to their remote location and economic circumstances. The Centres provide a hub of activities and a variety of services which are organised according to a six-block service model including: Government social and administrative services, office services, education and skills development services, local economic development services, business services and community opportunities, information and communication activities. Since community needs are the driving factor in service provision, this model is modified to suit the context and environment of each Thusong Service Centre. At our branch we have satellite offices for a range of government departments, including the Departments of Education, Home Affairs and Agriculture. We also have SASSA representatives and a satellite office for the Blouberg Municipality. The Ratshaatshaa Health Centre also operates from our centre, providing primary health care services.

Child Welfare South Africa - Limpopo Provincial Office (CWSA - Limpopo)

We are a non-government (NGO), non-profit organisation (NPO). We are a volunteer driven organisation. We provide child protection services that promote, protect and enhance the safety, well-being and healthy development of children. Our programmes create a safe and caring environment and promote community mobilisation for the effective protection of children. We strengthen and develop capacity in member organisations providing services to children and families. We are a part of the Asibavekele programme. This programme works within communities to support vulnerable children and women. Volunteers are selected who identify households which are headed by children. We then provide support to these youngsters through our volunteers, ensuring that they are safe, are protected by the social system, have food and continue their education. Our national helpline is 0861 4CHILD (0861 424 453). At our branch we provide administrative support and guidance to our various service points throughout the province. We are open from 08:00 to 16:00, Monday to Friday.

We are a community-based (CBO), non-profit organisation (NPO). We provide support services for community members and a safe haven for vulnerable children. Our drop-in centre cares for school-going children between the ages of 6 and 18. We provide children in our care with breakfast before school and lunch after school. We also assist children with completing their homework and offer them participation in a range of recreational and cultural activities. Whenever we are able, we distribute food parcels to needy families and individuals within the community. We also assist community members with completing their applications for birth certificates, identity documents and social grants. We are open from 06:00 to 17:00, Monday to Friday.

Human Resource and Social Information Centre

We are a community-based (CBO), non-profit organisation (NPO). We work to address the socio-economic development needs of people in the communities of Limpopo province. For school-going children and youth, we run career guidance and vocational training programmes. We run a community youth entrepreneurship programme which assist community members with starting their own businesses. We also run HIV and AIDS awareness campaigns, integrating edutainment principles when applicable. Our home-based care programme services 10 communities in our region. We assist our patients with cooking, bathing and ensuring that they take their medication correctly. We also educate family members in how to take care of the ill. Our care-givers also refer patients to health facilities and collect other required resources for the patients including medication and other supplies. Our income-generation and job creation programme trains youth on poultry farming, vegetable production and assists community arts and cultural projects by supplying resources. We run leadership skills training programmes for youth, adults and community organisations. We also run a school child support programme, where we identify child-headed households, orphans and vulnerable children within the community and support them through the provision of food parcels, clothing, school uniforms and academic support services. We are open from 08:00 to 16:30, Monday to Thursday. On Friday we are open between 08:00 and 16:00.

Lancet Laboratories - Polokwane Laboratory

We are a business/private organisation. We are one of the leading pathology laboratories operating throughout Africa, providing vital diagnostic and monitoring pathology services. We offer an extensive range of pathology services, from sophisticated molecular and cytogenetic investigations to advanced chemical analyses. We service the corporate, insurance and industrial sectors and have a large network of nurses and phlebotomy staff who service private and public hospitals and clinics, as well as depots in Gauteng, Mpumalanga, Limpopo, KwaZulu-Natal and the North-West Province. Our team of dedicated couriers operate in all of these regions, collecting specimens from medical practices and depots and delivering them safely and efficiently to nearby laboratories. Our main laboratory is based in Richmond, Johannesburg. This laboratory processes both routine and specialised pathology investigations and also acts as a reference laboratory to many smaller laboratories throughout South Africa and Africa. Large reference laboratories are also located in Durban and Pretoria, servicing the KwaZulu-Natal and northern regions. More than one hundred smaller STAT laboratories have been established in private hospitals and clinics throughout Africa to process urgent and emergency samples from these centres. Our facilities are equipped to support HIV counselling and testing (HCT/VCT) through rapid tests for antibodies, as well as tests to determine the presence of the virus in blood. We also support HIV-related blood tests such as CD4 cell counts and viral loads. To find your nearest branch call our 24 Hour number 0861 LANCET or 0861 526238.

Letaba Helene Franz Bursary Scheme

We are a non-profit organisation (NPO). We focus on serving and supporting disabled people within our community. We facilitate the integration of young learners with disabilities at special schools into mainstream high schools. We adhere to the belief that early mainstreaming of disabled learners leads to the creation of empowered, self-reliant adults. We identify learners with physical disabilities who are studying at Letaba, Helene Franz and Tshildzini Special Schools and place them at mainstream high schools. These learners, despite their physical disabilities are able to lead independent lives with minimal supervision or assistance. They are also learners who display academic excellence. We care for disabled youth from 12 to 18 years of age. We provide mentorship, training programmes, employment placement services and family advisory services. We are open from 08:00 to 16:00, Monday to Friday.

Soul City Promotions

We are a non-profit organisation (NPO). We form part of Soul City, a country-wide organisation that provides guidance and AIDS awareness education for the youth. We produce multi-media materials on HIV, AIDS, TB and gender issues to help support our training and communications programmes in schools and through the media in South Africa. We run a number of soul buddy clubs which promote opportunities for children in schools to make a difference to their circumstances as well as for other children in their immediate areas. We distribute condoms and we also run TB, HIV, AIDS and drug abuse awareness workshops. We are open from 08:00 to 17:00, Monday to Friday.

South African Social Security Agency - Limpopo Provincial Co-ordinating Office (SASSA - Limpopo)

We are a government/public organisation. As a public entity, we promote democracy and a culture of respect for human rights through social cohesion, integrity, fairness, transparency, equity and a customer care-centred approach. Our mandate is to ensure the provision of comprehensive social security services against vulnerability and poverty within the constitutional and legislative framework. We are responsible for ensuring that government pays the right grant, to the right person, at a location which is most convenient to that person. We make provision for several types of grants which include Grants for Older Persons; Disability Grants; War Veterans Grants; Foster Care Grants; Care Dependency Grants; Child Support Grants as well as Grant-in-Aid allocations. We are a SASSA service point and pay point where we facilitate the administration of grant applications, appeals, renewals and payments. We are open from 08:00 to 16:00, Monday to Friday. Our 24 Hour National Grant and Fraud Helpline is 0800 601 011. We are the provincial co-ordinating office for Limpopo.

Suid-Afrikaanse Vrouefederasie - Polokwane Diensbestuur (SAVF - Polokwane)

We are a community-based (CBO), non-profit organisation (NPO). We provide various social services to individuals and families within the community so as to enable them to improve their quality of life. Established as a carrier of hope for people with social needs, over the years we have grown into a diverse organisation which provides homes for the elderly, children and traumatised women. We run various nursery schools and other community projects and programmes. We are committed to reduction of poverty, sustainable development, family life enhancement and HIV counselling and support. Our social development programme is called SAVF FAMNET. At our branch we provide home-based care services for sick people and support for their vulnerable family members. We bathe them, cook for them, clean their houses and ensure they adhere to their treatment regimens. We provide a residential facility and other care and support services. We care for older persons aged from 75 years onwards. When available we distribute food parcels to disadvantaged families. We also help people apply for identity documents, social grants and birth certificates by referring them to the relevant government departments. We are open from 07:30 to 16:00, Monday to Friday.

Thusong Babirwa Service Centre

We are a government/public organisation. Established as a one-stop, integrated community development centre with community participation and services relevant to people's needs, we empower the poor and disadvantaged through access to information, services and resources. Our Centres integrate government services into primarily rural communities which historically have poor service access due to their remote location and economic circumstances. The Centres provide a hub of activities and a variety of services which are organised according to a six-block service model including: Government social and administrative services, office services, education and skills development services, local economic development services, business services and community opportunities, information and communication activities. Since community needs are the driving factor in service provision, this model is modified to suit the context and environment of each Thusong Service Centre. At our branch we house satellite offices for government departments, including the Departments of Agriculture, Labour, Correctional Services, Home Affairs, Health and Social Development. We also run a community library and a post office agency from our premises.

Thuthuzela Care Centre - Mankweng Hospital

We are a community-based (CBO), government/public organisation. We are a unit of the Sexual Offences and Community Affairs Unit (SOCA) of the National Prosecuting Authority of South Africa. One of the SOCA's key achievements in ensuring government's commitment to the fight against sexual offences and gender-based violence is the establishment of Thuthuzela Care Centres (TCCs). The TCC concept is recognised by the UN General Assembly as a world best-practice model in the field of gender-violence management and response. The TCCs are one-stop facilities located in public hospitals in communities where the incidence of rape is particularly high. The TCCs provide survivors with a broad range of essential services from emergency medical care and counselling to court preparation in a holistic, integrated and victim-friendly manner. The department aims to establish 35 centres by 2025. We are situated within Mankweng Hospital and are open 24 Hours a day, Monday to Sunday.

South African National Tuberculosis Association - Kgaphamadi Community Care Group (SANTA - Kgaphamadi)

We are a government/public organisation. We are a national body which represents the voice of the TB patient. We are committed to serving communities and TB patients of all ages throughout South Africa by providing preventative, curative and rehabilitative services in partnership with other stakeholders. We work to facilitate the speedy recovery of TB patients through DOTS and providing nutritional supplements where necessary. Our nutritional programme covers patients, their family members and care-givers and is critical to aid recovery from TB infection, build stronger immunity and control latent TB. We provide social assistance to our clients, helping them to obtain social support grants, providing uniforms to orphans and vulnerable children and skills development programmes for patients so that they can generate an income for their families. We provide training for our clients, community care-givers and the public to increase awareness of TB and HIV so as to prevent reinfections and drug-resistant TB. SANTA contributes to the national TB programme initiated by the Department of Health which aims to eliminate the TB epidemic in South Africa. At our branch we provide home-based care services for sick people and support for their vulnerable family members. We bathe them, cook for them, clean their houses and ensure they adhere to their treatment regimens. We also run health education programmes and help people apply for identity documents, social grants and birth certificates by referring them to the relevant government departments. We are open from 08:00 to 16:00, Monday to Friday.

Haakdoring Home Community-Based Care

We are a community-based (CBO), non-profit organisation (NPO). We provide home-based care services for sick people and support for their vulnerable family members. We bathe them, cook for them, clean their houses and ensure they adhere to their treatment regimens. We also care for TB patients by providing home-based care services and a DOTS programme 7 days a week. We run a wellness clinic for children from birth to 5 years of age. We distribute food parcels to child-headed households, orphans and our patients from the produce grown in our own gardens. We run support groups at our nearest clinic for people infected by HIV, AIDS and TB. We also run educational programmes on health related issues. In addition we help people apply for identity documents, social grants and birth certificates by referring them to the relevant government departments. We are open from 08:00 to 16:00, Monday to Friday.

Thusong Fetakgomo-Atok Service Centre

We are a government/public organisation. Established as a one-stop, integrated community development centre with community participation and services relevant to people's needs, we empower the poor and disadvantaged through access to information, services and resources. Our Centres integrate government services into primarily rural communities which historically have poor service access due to their remote location and economic circumstances. The Centres provide a hub of activities and a variety of services which are organised according to a six-block service model including: Government social and administrative services, office services, education and skills-development services, local economic development services, business services and community opportunities, information and communication activities. Since community needs are the driving factor in service provision, this model is modified to suit the context and environment of each Thusong Service Centre. At our branch we house a telecentre, library and enterprise development initiative. We also have satellite offices for the Departments of Home Affairs, Agriculture, Labour, SAPS and SASSA. Officials from the Fetakgomo Municipality are also stationed at our facility. We are open from 07:30 to 16:30, Monday to Friday.

Thusong Kgautswane Service Centre

We are a government/public organisation. Established as a one-stop, integrated community development centre with community participation and services relevant to people's needs, we empower the poor and disadvantaged through access to information, services and resources. Our Centres integrate government services into primarily rural communities which historically have poor service access due to their remote location and economic circumstances. The Centres provide a hub of activities and a variety of services which are organised according to a six-block service model including: Government social and administrative services, office services, education and skills-development services, local economic development services, business services and community opportunities, information and communication activities. Since community needs are the driving factor in service provision, this model is modified to suit the context and environment of each Thusong Service Centre. At our branch we have a primary health care clinic which provides general and HIV-related health care services. Our clinic is open during the week and on weekends, with an emergency and stand-by operation also available. We house satellite offices for numerous government Departments including the Departments of Public Works, Labour, Home Affairs, Education, Health, Social Development and SASSA.

Bophelong Health Care and Nutrition Project

We are a non-profit organisation (NPO). We provide home-based care services for sick people in our community and support for their vulnerable family members. This care includes bathing patients, cleaning their homes and ensuring that they adhere to their treatment regimen. We run a drop-in centre which provides care and support for the community at large but focuses on assisting orphans and vulnerable children. We receive food parcels from local social workers and distribute them among disadvantaged community members. We have initiated a food garden for the purposes of supplementing the food parcels and as an income-generation project. At our drop-in centre we provide after-care services for orphans and vulnerable children, providing them with lunch every weekday and assisting them with completing their homework. We assist individuals applying for social grants by referring them to the Department of Social Development and doing follow ups.

Thusong Service Centre - Mabatlane/Vaalwater

We are a government/public organisation. Established as a one-stop, integrated community development centre with community participation and services relevant to people's needs, we empower the poor and disadvantaged through access to information, services and resources. Our Centres integrate government services into primarily rural communities which historically have poor service access due to their remote location and economic circumstances. The Centres provide a hub of activities and a variety of services which are organised according to a six-block service model including: Government social and administrative services, office services, education and skills-development services, local economic development services, business services and community opportunities, information and communication activities. Since community needs are the driving factor in service provision, this model is modified to suit the context and environment of each Thusong Service Centre. At our branch we operate a post office, telecentre and community library. We also have an office for Emergency Medical Services and SASSA. We house satellite offices for a number of government departments including the Departments of Labour, Agriculture, Justice, Social Work, Social Development and Home Affairs. We are open from 07:30 to 16:30, Monday to Friday.

Families South Africa - Limpopo (FAMSA - Limpopo)

We are a non-government (NGO), non-profit organisation (NPO). We provide expertise in the area of relationship counselling. Formally known as Family and Marriage Society of South Africa, we empower people to reconstruct, build and maintain sound and stable relationships. We believe that healthy and stable relationships promote healthy individuals, families and communities. Our social workers support families to resolve conflict and distress, supporting all members of the family to overcome challenges through counselling, community development and economic empowerment programmes. We charge fees when clients can afford to pay. At this branch we train care workers who intend working with children, youth and young adults between the ages of 4 and 35 years. We provide life skills education programmes for youth and have play therapists that specialise in group work with children. This programme includes counselling, youth development and skills development training. We are open 08:00 to 16:00, Mondays to Fridays.

Lancet Laboratories - Tzaneen Private Hospital Laboratory

We are a business/private organisation. We are one of the leading pathology laboratories operating throughout Africa, providing vital diagnostic and monitoring pathology services. We offer an extensive range of pathology services, from sophisticated molecular and cytogenetic investigations to advanced chemical analyses. We service the corporate, insurance and industrial sectors and have a large network of nurses and phlebotomy staff who service private and public hospitals and clinics, as well as depots in Gauteng, Mpumalanga, Limpopo, KwaZulu-Natal and the North-West Province. Our team of dedicated couriers operate in all of these regions, collecting specimens from medical practices and depots and delivering them safely and efficiently to nearby laboratories. Our main laboratory is based in Richmond, Johannesburg. This laboratory processes both routine and specialised pathology investigations and also acts as a reference laboratory to many smaller laboratories throughout South Africa and Africa. Large reference laboratories are also located in Durban and Pretoria, servicing the KwaZulu-Natal and northern regions. More than one hundred smaller STAT laboratories have been established in private hospitals and clinics throughout Africa to process urgent and emergency samples from these centres. Our facilities are equipped to support HIV counselling and testing (HCT/VCT) through rapid tests for antibodies, as well as tests to determine the presence of the virus in blood. We also support HIV-related blood tests such as CD4 cell counts and viral loads. To find your nearest branch call our 24 Hour number 0861 LANCET or 0861 526238.

National Association of Child Care Workers - Mandihakazi

(NACCW - Mandihakazi)

We are a non-profit organisation (NPO). We promote optimal standards of care for orphaned, vulnerable and at-risk children and youth. We are a professional association which comprises a membership body as well as a professional services section. All our activities focus on improving the quality of services for children and youth. We do this through developing the abilities of those who work directly with them. Child and youth care workers work with children wherever they may be, in residential care facilities, families and communities. We use ordinary daily events to intervene developmentally and therapeutically with children and youth. This practice constitutes a new social service profession. At our branch we run a drop-in centre for children from birth to 18 years. We provide them with daily meals, assist them with their homework and provide life skills training. We also provide home-based care services for sick people and support for their vulnerable family members. We bathe them, cook for them, clean their houses and ensure they adhere to their treatment regimens. We also help people apply for identity documents, social grants and birth certificates by referring them to the relevant government departments. We are open from 14:00 to 18:00, Monday to Friday.

Hlokemela

We are a non-government organisation (NGO). We seek to contribute to the reduction of HIV prevalence and the impact of AIDS among commercial workers and their families through an integrated programme of prevention, treatment and care. We have Wellness Clinics on 3 sites, being Uni-fruiti, Bavaria and in the Timabavati at Phelwana. In addition we have satellites at Richmond, Thornybush, Ngala and Singita Lebombo which enables the programme to take care of HIV-clients, supplying HIV Counselling and Testing, Adherence Training and ARV treatment. We improve the nutrition of sick workers by providing them with food grown in a community vegetable and herb garden. We are open from 08:00 to 16:30, Monday to Friday.

Seeds of Light South Africa

We are a community-based (CBO), non-profit organisation (NPO). We run the Ekurhuleni Centre for Orphans and Vulnerable Children which is a unique community-based project dedicated to providing emotional, physical, mental, social and spiritual support for orphans as well as other vulnerable children (OVC) and youth from 5 to 18 years of age whose parents are not able to care for them due to illness and extreme poverty. OVC and youth are given 2 meals a day during the week and school-going children are assisted with their homework, they read and take part in physical activities. We also run the One Hat One Heart project that provides handmade, warm winter hats for OVC. Our projects have 3 main areas of focus being school-based programmes where we partner with schools to support their ability to provide a high quality education for the children within a healthy, sustainable school environment. With our community empowerment project we offer and support community projects around our schools to help uplift these impoverished communities and with our scholarship programme we sponsor a number of individuals who show real promise by providing grants to cover the fees and other costs for their education. Life skills training is provided for the youth, we run a gardening project to supplement our feeding scheme and we have a nurse on site to take care of the children's health. We take action with practical projects to support and uplift impoverished and marginalised communities such as providing access to clean water, creating food gardens, improving overall health of AIDS OVC and preserving endangered species and ecosystems. We also run TB, HIV and AIDS awareness workshops and we promote health and wellness. We assist and refer regarding applications for birth certificates, identity documents and social grants. We are open from 08:00 to 16:00, Monday to Friday.

Thusong Maruleng Service Centre

We are a government/public organisation. Established as a one-stop, integrated community development centre with community participation and services relevant to people's needs, we empower the poor and disadvantaged through access to information, services and resources. Our Centres integrate government services into primarily rural communities which historically have poor service access due to their remote location and economic circumstances. The Centres provide a hub of activities and a variety of services which are organised according to a six-block service model including: Government social and administrative services, office services, education and skills-development services, local economic development services, business services and community opportunities, information and communication activities. Since community needs are the driving factor in service provision, this model is modified to suit the context and environment of each Thusong Service Centre. At our branch we have an office of the Umsobomvu Youth Fund which provides financial assistance to entrepreneurs. We also house satellite offices for the Departments of Economic Development, Tourism, Environment, Health, Social Development and Home Affairs.

Riverplaats Clinic

We are a government/public organisation. We are a primary health care facility providing HIV, AIDS and TB-related treatment. We have a community oriented primary health care programme that monitors and proactively works towards the improved health and well-being of families in our area. We are an accredited antiretroviral (ARV) treatment initiation and on-going treatment site. We distribute fortified porridge to underweight, TB, HIV and AIDS patients. We run a monthly support group for HIV-positive people. A social worker is available to help people apply for social grants, identity documents and birth certificates. We provide home-based care services for sick people and support for their vulnerable family members. We provide assessments and referrals for people with mental health issues. We also provide maternity services for pregnant women which includes short-term admissions for up to 6 hours post-delivery. Patients are referred to Elim Hospital for further medical care. Our service area is Riverplaats Village. We are open 24 Hours a day, 7 days a week.

Salvation Army - Limpopo Headquarters

We are a faith-based (FBO), non-profit organisation (NPO). We function as a social development service provider and work towards the advancement of the Christian religion, education, poverty relief and other charitable initiatives. Whether it is embracing the homeless, uplifting the abused or abandoned, training and mentoring the disadvantaged, providing character building programmes for youth, emergency disaster relief, health and welfare services or assisting the displaced and older persons, our goal remains the same "serving the most people, meeting the most needs". We are the provincial office for the Limpopo region and we oversee the community support and service programmes across the province. We support our community centre in Thohoyandou which provides a creche for under-privileged children. We also donate, blankets, clothing and food to disadvantaged people. We are open from 08:00 to 16:00, Monday to Friday.

Suid-Afrikaanse Vrouefederasie - Louis Trichardt (SAVF - Louis Trichardt)

We are a community-based (CBO), non-profit organisation (NPO). We provide various social services to individuals and families within the community so as to enable them to improve their quality of life. Established as a carrier of hope for people with social needs, over the years we have grown into a diverse organisation which provides homes for the elderly, children and traumatised women. We run various nursery schools and other community projects and programmes. We are committed to reduction of poverty, sustainable development, family life enhancement and HIV counselling and support. Our social development programme is called SAVF FAMNET. At our branch we tailor our activities and programmes to the current needs of our community. Presently, we provide life skills training programmes, career guidance and community health awareness and prevention abuse programmes. We focus on counselling, mediation and family care services with the primary focus being on family preservation. We distribute food parcels to disadvantaged people. We also help people apply for identity documents, social grants and birth certificates by referring them to the relevant government departments. We are open from 08:00 to 16:30, Monday to Friday.

Takalani Children's Home

We are a community-based (CBO), non-profit organisation (NPO). We provide a residential facility caring for children and youth from birth to 18 years of age. We provide support for orphans as well as other vulnerable children and youth ensuring that they have 3 meals a day, shelter, clothing and that their basic needs are met. We assist them with applying for identity documents and birth certificates by completing and submitting the relevant documents to the Department of Home Affairs. We provide access to education, homework support, sports programmes and social workers that visit us to provide counselling for the children. Adoption and foster care arrangements are made through the social workers. We run workshops on TB, HIV and AIDS awareness, teenage pregnancy, abstinence and sexual abuse. Life skills training is provided for the youth and support for survivors of abuse and rape. We run a gardening project to supplement our feeding scheme. We are open from 08:00 to 16:30, Monday to Friday.

Thusong Bulamahlo Service Centre

We are a government/public organisation. Established as a one-stop, integrated community development centre with community participation and services relevant to people's needs, we empower the poor and disadvantaged through access to information, services and resources. Our Centres integrate government services into primarily rural communities which historically have poor service access due to their remote location and economic circumstances. The Centres provide a hub of activities and a variety of services which are organised according to a six-block service model including: Government social and administrative services, office services, education and skills-development services, local economic development services, business services and community opportunities, information and communication activities. Since community needs are the driving factor in service provision, this model is modified to suit the context and environment of each Thusong Service Centre. At our branch we house a community initiative called Bulamahlo Projects which runs a creche and provides adult education and training programmes. We also house satellite offices of government departments including the Departments of Home Affairs, Health, Social Development and the Municipality. We also have a SASSA Service Point and Pay Point at our site.

Thuthuzela Care Centre - Tshilidzini Hospital

We are a community-based (CBO), government/public organisation. We are a unit of the Sexual Offences and Community Affairs Unit (SOCA) of the National Prosecuting Authority of South Africa. One of the SOCA's key achievements in ensuring government's commitment to the fight against sexual offences and gender-based violence is the establishment of Thuthuzela Care Centres (TCCs). The TCC concept is recognised by the UN General Assembly as a world best-practice model in the field of gender-violence management and response. The TCCs are one-stop facilities located in public hospitals in communities where the incidence of rape is particularly high. The TCCs provide survivors with a broad range of essential services from emergency medical care and counselling to court preparation in a holistic, integrated and victim-friendly manner. The department aims to establish 35 centres by 2025. We are situated within Tshilidzini Hospital and are open 24 Hours a day, Monday to Sunday.

Bela-Bela

Bela-Bela Clinic

We are a government/public organisation. We are a primary health care facility providing HIV, AIDS and TB-related treatment. We have a community oriented primary health care programme that monitors and proactively works towards the improved health and well-being of families in our area. We are an accredited antiretroviral (ARV) treatment initiation and on-going treatment site. We distribute fortified porridge to malnourished, TB, HIV and AIDS patients. We provide home-based care services for sick people and support for their vulnerable family members. We provide assessments and referrals for people with mental health issues. We also provide maternity services for pregnant women. We refer patients to Bela-Bela Hospital for further treatment. Our service area is Bela-Bela. We are open 24 Hours a day, 7 days a week.

A OR Tambo Street, Bela-Bela, Limpopo, 0480

Bela-Bela HIV and AIDS Prevention Group

We are a community-based organisation (CBO). Our primary focus is to provide care, support and community development services. We also provide awareness programmes on HIV and AIDS, TB, Cancer and other infectious diseases. We provide home-based care, HIV counselling and testing (HCT/VCT), DOTS and run a support group. Our team of care-givers tend to the sick in their homes every weekday and ensure that they are taking their medication correctly. We have a garden project from which we make up food parcels with the produce and distribute them to destitute patients. We work in close collaboration with Leah Makoena Clinic. We are open from 08:00 to 16:00, Monday to Friday.

Christelike-Maatskaplike Raad/Christian Social Council - Warmbad (CMR/CSC - Warmbad)

We are a faith-based (FBO), non-profit organisation (NPO). We are a professional network of social workers operating with a Christian ethos. We provide people with care and support through our community programmes which focus on family preservation, child protection, poverty alleviation, HIV, AIDS and TB. We provide community-based counselling, social welfare and social services for the poorest and most vulnerable people of all ages. We support families in making children's court representations, assisting with foster-care placements, supervising foster-care parents and where possible re-unifying children with their biological parents and family. At our branch we provide under-privileged children with material assistance in the form of stationery and other necessities so that they may attend school. We support local creches and provide monthly food parcels to needy families. We run enrichment and upliftment programmes for women which include a focus on skills development. We provide under-privileged children with the opportunity to enjoy a holiday by the sea and an annual Christmas party. We also distribute food parcels once a month to disadvantaged people and donate school stationery to orphans. We are open from 08:00 to 16:00, Monday to Friday.

Abraham Kriel Kinderhuis - Nylstroom

We are a community-based (CBO), non-profit organisation (NPO). We provide a residential facility caring for children and youth. We care for children between the ages of 3 and 18 as well as children are placed in our home by means of a court order as a result of child abuse, alcohol abuse, drug abuse, lack of parental skills, family violence and other factors that might endanger their lives. We ensure that children in our care have shelter, clothing, food to eat and that their basic needs are met. We provide access to education, counselling, homework support and assistance in applications for birth certificates and identity documents by completing and submitting the relevant forms. Due to the traumatic circumstances through which the children are placed with us, we focus heavily on trauma intervention, counselling and therapeutic services. We are open from 07:00 to 16:00, Monday to Friday.

Thusong Mapela Service Centre

We are a government/public organisation. Established as a one-stop, integrated community development centre with community participation and services relevant to people's needs, we empower the poor and disadvantaged through access to information, services and resources. Our Centres integrate government services into primarily rural communities which historically have poor service access due to their remote location and economic circumstances. The Centres provide a hub of activities and a variety of services which are organised according to a six-block service model including: Government social and administrative services, office services, education and skills development services, local economic development services, business services and community opportunities, information and communication activities. Since community needs are the driving factor in service provision, this model is modified to suit the context and environment of each Thusong Service Centre. At our branch we house satellite offices for a number of government departments, including Health, Social Development, Home Affairs, Correctional Services and SASSA. We also have a clinic on-site which provides primary health care services to community members. We are open from 07:30 to 16:30, Monday to Friday.

Lancet Laboratories - Thabazimbi Laboratory

We are a business/private organisation. We are one of the leading pathology laboratories operating throughout Africa, providing vital diagnostic and monitoring pathology services. We offer an extensive range of pathology services, from sophisticated molecular and cytogenetic investigations to advanced chemical analyses. We service the corporate, insurance and industrial sectors and have a large network of nurses and phlebotomy staff who service private and public hospitals and clinics, as well as depots in Gauteng, Mpumalanga, Limpopo, KwaZulu-Natal and the North-West Province. Our team of dedicated couriers operate in all of these regions, collecting specimens from medical practices and depots and delivering them safely and efficiently to nearby laboratories. Our main laboratory is based in Richmond, Johannesburg. This laboratory processes both routine and specialised pathology investigations and also acts as a reference laboratory to many smaller laboratories throughout South Africa and Africa. Large reference laboratories are also located in Durban and Pretoria, servicing the KwaZulu-Natal and northern regions. More than one hundred smaller STAT laboratories have been established in private hospitals and clinics throughout Africa to process urgent and emergency samples from these centres. Our facilities are equipped to support HIV counselling and testing (HCT/VCT) through rapid tests for antibodies, as well as tests to determine the presence of the virus in blood. We also support HIV-related blood tests such as CD4 cell counts and viral loads. To find your nearest branch call our 24 Hour number 0861 LANCET or 0861 526238.

Thabang Children's Project

We are a community-based (CBO), non-profit organisation (NPO). We run a child and youth care centre which is a temporary home for orphans as well as other vulnerable children and youth from birth to 18 years of age. We provide 3 meals a day, medical and psychological care, schooling, pre-school stimulation programmes and computer training. Weekly group meetings and intensive personal care and attention by our social worker and the house mother ensure close monitoring of personal development and group integration. Our Youth Centre caters for boys between the ages of 6 and 18 from dysfunctional domestic situations. The youngsters are introduced to a communal schedule which includes the responsible organisation of daily life including cleaning and cooking for the group, working and attending school. We also run a drop-in facility where we assist school-going children with their homework and they take part in physical activities. Life skills training is given and we teach children and youth how to paint in our painting studio, we do woodwork and sewing. We run empowerment programmes and we provide psycho-social support. We are open 24 Hours, 7 days a week. Our office hours are from 08:00 to 17:00, Monday to Friday.

Thabazimbi Home-Based Care Organisation

We are a community-based (CBO), non-profit organisation (NPO). We provide home-based care services for sick people and provide support to their vulnerable family members. Our care-givers tend to the sick in their homes and ensure that they adhere to their treatment regimens. We focus primarily on supporting families affected by HIV, AIDS and TB. We also provide counselling for individuals who have just discovered that they are HIV-positive. We run TB, HIV and AIDS awareness workshops and we promote health and wellness. We refer survivors of abuse and rape for assistance and we help people apply for identity documents, social grants and birth certificates by referring them to the relevant departments. We are open from 08:00 to 16:00, Monday to Friday.

HIV/AIDS PROGRAMME OF

**ENABLES SOUTH AFRICAN HIGHER EDUCATION INSTITUTIONS
TO MITIGATE THE IMPACT OF HIV AND AIDS**

The Higher Education HIV/AIDS Programme (HEAIDS) is an initiative of the Department of Higher Education and Training and is undertaken by Higher Education South Africa (HESA), which represents South Africa's 23 public Higher Education Institutions. HEAIDS supports the development of human rights based HIV/AIDS policies and programmes including:

- capacity development - advocacy - prevention - voluntary counseling and testing - treatment, care and support - curriculum development - workplace programmes - community outreach - research - monitoring and evaluation -

HEAIDS
Building 1, Unisa Sunnyside
Campus
Cnr Rissik and Mears Street
Sunnyside, Pretoria
Tel: 012 4841134
Fax: 012 4841147/8
heidsa@hesa.org.za

*Now **HEAIDS** has partnered with info4africa to enhance the referral of students, academics and staff to HIV, TB and STI treatment, care and support services in the communities surrounding their institutions and within their home communities*

FPD is committed to *developing* the *capacity* of healthcare professionals and managers in *Africa* thereby ensuring they are better equipped to meet the *challenges* facing healthcare in the region

Building a better society through education and development

Teaching and Learning

FPD is a Private Institute for Higher Education (registration number 20002/HE071013) registered with the South African Department of Education in terms of section 54(1)(c) of the Act and Regulation 16(4)(a) and is an accredited service provider for continuous professional development (CPD) by the Medical and Dental Professions Board of the Health Professions Council of South Africa (HPCSA).

- To date we have trained over 200 000 students in a 135 courses over 16 countries.

Capacity Development

FPD has a strong capacity development focus which stems from our vision to build a better society. This focus includes projects which are designed to promote Private-Public-Initiatives with a view of improving health service delivery and academic capacity within the public sector. We have:

- over 235 000 patients currently on antiretroviral treatment.
- placed over 2 550 foreign professionals in rural government hospitals in South Africa since 2005.
- placed 188 masters level students and graduates in targeted scarce skills shortage areas in the public sector AIDS service domains since 2006.
- provided the NGO community with both a voice and the ability to implement key findings to enhance service delivery.
- provided the public with immediate access to the

locations of their nearest HCT Testing Facility through GIS mapping and geo-coding.

- organised and/or hosted over 25 conferences, congresses and forums since 2000 including the XIII international AIDS Conference, a 13 000 delegate event that changed the global perception on the availability of drugs in Africa and to date it is still one of the largest conferences held in Africa.

Research

FPD participates in research projects with as much passion and commitment as our day to day activities. This is because we believe that attempts to improve society begin with research and educational development. Annually, FPD staff participate in a number of research projects which have resulted in community-focused publications presented in journals, books and many international conferences. Since 2003, FPD have produced 150 oral presentations, 135 poster presentations and 88 publications.

Strategic Partnership

FPD has over the years developed a number of strategic partnerships with world-class academic and health development institutions. These partnerships range from international partnerships (18) to national partnerships (50) including partnerships with several South African Provincial Government Departments.
