

ADVANCED HEALTH MANAGEMENT PROGRAMME

Mr. James Jogessar

James is working as a Pharmacy Manager at the Church of Scotland Hospital, Tugela Ferry in KwaZulu-Natal with 14 different attached clinics.

On FPD and their presentation on the course he says: "FPD was extremely efficient in their services, helpful, courteous, happy, and with pleasant attitudes all round. The contact persons (Susan & Lucy), the presenters at the various seminars in Durban, the co-ordinators, the assessors, were all pleasant and approachable, while being firm. The various speakers were all very knowledgeable and able to teach their section very well in an understandable manner." "I look forward for many more such programmes. A revision of what we were exposed to would be most useful."

"The course has been a major benefit in knowing myself, the different needs, and different management styles that can be utilised."
