

ADVANCED HEALTH MANAGEMENT PROGRAMME

Dr. Sanni Babatunde

Sanni is a Senior Monitoring and Evaluation Advisor for the Strategic Health Programmes at the National Department of Health. He was previously a National HIV/TB Technical Advisor for Management Sciences for Health.

"The course is very relevant to health Programmes/project management. I found it to be very detailed and professionally presented. The course refocused my career path and sharpened my skills in health system management. I will recommend this course to anyone with a passion for improved health systems. FPD should go further and make the course available to all the other African countries."
