

HIGHER CERTIFICATE IN MANAGEMENT

Ms. Linda Peter

Linda is the manager of Employee Health and Wellness services for the Department of Transport and is also a professional Nurse.

She says: "After the course I was able to restructure my department and also develop strategies and policies for the department. Also I have improved both in self management and people management after the course. The course was so helpful, in that after I applied the principles I learnt there in I got an 89% for my performance evaluation."

"FPD is doing a superb job at present especially in developing HIV/AIDS managers and managers in general. I was so impressed with FPD, my organisation developed a partnership with FPD, and we intend to continue with the partnership. Also due to the knowledge gained at FPD, we were able apply for accreditation to be an HCT site. Therefore we were provincially accredited."
