

# ADVANCED HEALTH MANAGEMENT PROGRAMME

## Ms. Annoesjka Swart

Annoesjka is a Pharmacist and part of the management team at the Medicines Information Centre at the University of Cape Town.

Annoesjka says that although the AHMP course was very hard work, she enjoyed it immensely.

*"I did enjoy the AHMP course, though it was very hard work, I have derived a lot from the course. I am more conversant now with the everyday function of a manager than before the course. I am more confident in areas such as human resources, more specifically conflict management, change management. In addition I have been able to write proposals for funding basing on a template I developed with the help of the course, something I was not able to do before."*
