

ADVANCED HEALTH MANAGEMENT PROGRAMME

Mrs. Kamentha Seolall

Kamentha is working as a Quality Assurance Pharmacist and has completed the Advanced Health Management Programme.

"The AHMP has benefitted me in the following ways:

- 1) I was able to relate the concepts learnt, to my experience in the retail, hospital, IT, NGO and distribution pharmacy sector.
- 2) My knowledge and skills were enhanced especially with regards to project management and financial management.
- 3) AHMP gave me the opportunity to network with other health care professionals".

She believes that FPD is an excellent organisation that provides a much-needed educational service to professional people.

"FPD fills the "knowledge and skills" gap by providing the high quality, practical short courses."
