

ADVANCED HEALTH MANAGEMENT PROGRAMME

Mrs. Lida Ziervogel

Lida Ziervogel is a clinical nurse practitioner at the Knysna ARV Clinic and performs the duties of facility manager.

"I feel more competent and I am more equipped now to deal with the managerial issues of the facility. I now see everything I do as project management and I handle it as such from start to finish. And the issues I never handled before, I am taking them on with better confidence in myself. The course has also brought me closer to my career aspirations in terms of qualifications."
